SUMMARY

UI/UX designer with a background in engineering and experience working in aviation. Skilled in creating human-centered UI designs that are simple, intuitive, accessible, and aesthetically pleasing. Experienced in communicating with different kinds of customers, solving their problems, and adapting to unforeseen situations.

EDUCATION

CareerFoundry

UI/UX Design Certification
10/21 - 09/22

- Intensive project-based online training program with a focus on UI design, UX design, and front-end development
- Designed a responsive web app for a luxury wine club with several subscription plans. Analyzed competitors, did branding, produced interactive prototypes with Figma, assessed user test results and implemented feedback.
View project here: Oeneus Wine Club
- Built a native app to help people working at sea turtle conservation centers. Explored the market, produced interactive prototypes with Figma for iOS and Android, interpreted user feedback, and refined designs.
View project here: Sea Turtle Scan
- Created a responsive web app that allows users to find easy and healthy breakfast recipes. Performed competitive analysis, designed the user experience, created interactive prototypes with Adobe XD, analyzed usability test results and implemented feedback.
View project here: My Sunny Plate
- Developed my responsive portfolio website from scratch using HTML, CSS, and JavaScript. It is hosted through GitHub Pages.
